Basic courses cover the fundamentals of the language. Once this course is completed, you will be able to read and write, respond to commands and make requests, carry out everyday conversations, acquire useful vocabulary, understand and use a range of grammar constructions involving the past, present, and future tenses, and gain control of frequently used idiomatic expressions.

Intermediate

At this level, you practice what you have learned in the Basic course and by the end of it you will be able to write letters, read short stories and express your thoughts, opinions, desires, experiences, and plans in the language.

Advanced

On completing this level you will be expressing yourself like a native speaker. You will read and understand newspapers, journals/magazines, and common literature, and enjoy T.V. programs and Bollywood movies.
